

Departamento de Ingeniería de Comunicaciones

CONFERENCIA

A TRIP AROUND ARCHITECTURE

impartida por

Dr. Jaroslaw Sliwinski

**R&D leader in Information and Communication
Technologies at Samsung Electronics**

Día: Lunes, 20 de abril de 2015

Hora: 12:00

Lugar: Sala de Grados B
E.T.S. Ingeniería de Telecomunicación
Campus de Teatinos

Contenido:

Architecture is a word that often appears during work in research projects. The meaning of word architecture more than often becomes ambiguous, especially when projects deal distributed environment or large amount of data for processing. This talk uses few examples to show an evolution of how the architecture can be perceived and used.

Sobre el ponente:

Jaroslaw Sliwinski received his MSc & BSc degrees in 2003 from Warsaw University of Technology in area of Telecommunications. In the same year, he had started working in different research projects at his home university. In 2008 he received PhD and continued working as Assistant Professor at Warsaw University of Technology. In 2012 he has started working for Samsung Electronics.
